## ABOL Easy-eVS improves shipping and postage payment

**Advanced Notification** – Transmit electronic manifests prior to induction at a postal facility, eliminating paper manifests.

**Seamless Acceptance** – All of your parcels are accepted by USPS at your convenience, eliminating Plant or Entry facility verification.

**Faster Processing** – The Postal Service™ samples parcels to compare to manifest data, so packages keep moving to their destination.

**Simple Reconciliation** – Visibility of electronic manifests and USPS® sampling data enables easy reconciliation prior to any postage adjustments charged to your CAPS account.

## Solutions for mid- to high-volume shippers

**ABOL Easy-eVS LITE** for single-location, non-presort shippers.

**ABOL Easy-eVS PLUS** for single-location, presort shippers.

**ABOL Easy-eVS PRO** for multiple location shippers and Postal Consolidators.

## ABOL Software makes it easy

ABOL Easy-eVS is already eVS-Compliant, so you don't have to develop your own software for USPS certification. ABOL Easy-eVS technology and services are proven to improve operations and simplify accounting with many of today's highest-volume shippers. Here's how it works.

ABOL Shipping Solution

3rd Party Manifest

In-House Unrated Order Data

Virtual Manifesting and Uploading to USPS

Manage PostalOne! Data and Reports

Reconcile Manifests, PostalOne! and CAPS

### *Flexible Technology*

ABOL Easy-eVS uses your current manifest or just an order file to ship eVS. Or, choose an ABOL Software manifest solution.

### *Virtual Manifesting*

ABOL Easy-eVS formats the eVS files and transmits them to USPS, ensuring timely and accurate manifests.

### *Monitoring with Data Management*

ABOL Easy-eVS integrates USPS sample and audit data with your manifest data, enabling timely resolution.

### *Reconciliation of Postage Payments*

ABOL Easy-eVS reconciles CAPS to shipments and manifests for total cost accounting and complete, end-to-end visibility.
